

# THE VAN

This brand new Sunseeker is a perfect example of the innovative Manhattan 53 range. Although the smallest in the latest Sunseeker flybridge range, the Manhattan 53 still presents spacious entertaining and socialising areas to suit all moods. 'The Van' offers a fantastic platform to enjoy a day cruising along the French Riviera with family or friends or for a romantic long weekend away to Italy.

**Launched at the 2011 Southampton Boat Show this new Sunseeker Manhattan 53 is the very first of the range to join the charter fleet for 2012.**

The Van' seems remarkably big for her length and presents a refreshing perspective on flybridge motoryachts at this size. Based in Monaco, she is available for day charters and romantic weekends on the French Riviera.

Step through the wide, slide-opening doorway into the naturally-lit saloon with its high ceiling and you will appreciate why it is said that the new 53 gives 'the sense of being on a yacht larger than its labelled size' and this feeling extends throughout the entire interior.

The main saloon is equipped with a 40" rise and fall LCD TV, DVD/CD cinema system with ipod docking, CD/Radio and ipod connection for exterior zoned speakers.

The stylish accommodation can sleep 6 guests in 3 cabins – the master aft double berth with large windows, a forward VIP cabin and a starboard twin guest cabin. All cabins are appointed to the high standard expected from Sunseeker, sumptuously designed and fitted.

A Williams jet tender and snorkelling gear add to your enjoyment when exploring the stunning southern French coastline on board this new generation of Sunseeker yachts.

A truly unforgettable experience awaits you and your guests.

## VESSEL FEATURES AND FACILITIES

### Built to EUROPEAN SPECIFICATION
